

EMBARGOED FOR RELEASE ON DELIVERY

The Honorable Malcolm Kenyatta
Member of the Pennsylvania House of Representatives
Democratic National Convention
Tuesday, August 20, 2024
Remarks as Prepared for Delivery

My fellow Americans, my name is Malcolm Kenyatta, a proud son of Pennsylvania.

This is Trump's Project 2025—all 900 pages of it. It's a radical plan to drag us backward, bankrupt the middle class, and raise prices on working families like yours and mine. Under Project 2025, a family with two kids making \$75,000 would pay \$1,800 more in federal taxes.

But there's more.

On page 465, Project 2025 would stop Medicare from negotiating to lower the price of prescription drugs and capping out-of-pocket costs. And on page 587, Project 2025 would cut overtime pay for hard-working Americans.

My friends, as long as we've been fighting to make America work for working families, there have been greedy corporate interests trying to take us back.

In 2019, my grandma—a civil rights warrior—called me, her voice cracking. She said, "I'm so sorry, baby. I thought my generation fixed this, and here you are fighting the same battles."

But you know what I said? I said, "It's OK, Grandma—it's just our turn. It's our turn to stand up for working people and stand up for our nation's promise. It's our turn to defend our rights—and to ensure democracy doesn't die on our watch."

It's our turn to make history by electing Kamala Harris as the next President of the United States of America!
