Remarks as Prepared for Delivery

I'm Michigan Attorney General Dana Nessel.

Being attorney general is a tough job. But as California's AG, Kamala Harris never shied away from a good fight.

She's held accountable environmental polluters, sexual abusers, and transnational gangs. But what really stands out is when she stood up and protected her constituents' freedoms.

In 2011, she refused to defend California's same-sex marriage ban. She refused to argue some families had fewer rights than others. It meant a lot. She was fighting for families like mine.

I faced a similar situation—after *Roe v. Wade* was overturned, Michigan's archaic abortion ban was resurrected. Vice President Harris had my back. She reminded me, "Protecting people's lives and defending their rights is your job."

And just as the same-sex marriage ban was overturned in California, so was the abortion ban in Michigan.

I know, whether AG or president, Kamala Harris will always be in our corner.

Now, you be the judge. Do we go back to the corruption, criminality, and chaos of Donald Trump? Or do we move forward with Kamala Harris?

We know when she takes an oath to preserve, protect, and defend the Constitution, she's actually read it. We know she'll appoint Supreme Court justices who will protect our freedoms. Kamala knows you go from the court house to the White House. Not the other way around.

I rest my case.
